

Prius

Highlander Hybrid

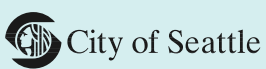

PZEV Camry

Toyota's new California headquarters,  
a LEED® Gold facility.

## MODELS OF PERFORMANCE AND EFFICIENCY FROM TOYOTA.

Toyota's new Torrance, California, headquarters doesn't look like a Prius. But with an annual energy savings of 42%, it sure runs like one. Thanks to LEED-NC, the USGBC's green building rating system for new construction, Toyota was able to achieve its sustainability goals – and then some. The results: 81% less water usage, an interior with 90% access to daylight and a square foot cost that is 17% less than their campus average. LEED (Leadership in Energy and Environmental Design) is the nationally recognized standard for high-performance green buildings from the U.S. Green Building Council. To find out more about leasing or building green space in King County, visit [www.BuildGreenNW.com](http://www.BuildGreenNW.com) or call 206-684-0806.
